and B2B

Hard

THE BIGGEST CHALLENGE

A lot of data....

A little bit of good luck....

MonsoonSIM and Research

MonsoonSIM used in experimental research design

Used by our undergraduate student on their theses.
The games simulates real-world business environment and used in a experimental research

IS-Usage determinant factors and its impact on company performance

Management Control System Effects On Team Commitment

Management Control System and Performance Evaluation Compression

And many more.....

MonsoonSIM and Research

Is MonsoonSIM really works ?

What is our students said ?

Is it help our student in their cognitive learning process ? How ?

What is the best measurement of students achievement in simulation game ?
Objective measures VS perception of cognitive learning

And many more.....

MonsoonSIM in Community Service

Small and Medium Enterprises

Introduce ERP
Decision process making

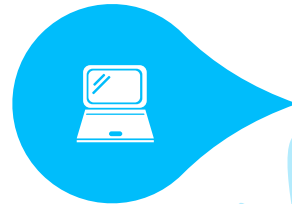

Senior High School Students

Business at a glance
